Price list

Models	Nominal Voltage (V)	Nominal capacity (AH)	External dimension (mm)		
			Length	width	Height
TN1000-(2)	1.2	1000	398	184	572

The price is USD478.50 per cell to the US

The price of 50pcs is USD23,925 to the us

- 1). Packing: wooden case.
- 2). Delivery time: 40-45 days after receiving the 40% deposit.
- 3). Payment: By T/T, 40% down payments and the balance 60% should be paid before delivering,

Remarks:

The weight of battery without electrolyte is 54 kg

The weight of battery with electrolyte is 72 kg

When battery are shipped ,there is no electrolyte, we will give the method of preparing electrolyte and solid electrolyte. Because the battery is not allowed to be shipped in China.

The battery get to customers' local area, customer can fill the battery with electrolyte.

The cells I have are from Zhuhai Sanchuan. I purchased 20 of them about 3 years ago. Three of the cells developed a problem where they would accept a charge, but used a LOT of water, and went to a negative charge as the battery bank discharged. These 3 bad cells in effect dropped the bank voltage lower than it should normally have been, causing a lowered capacity and more frequent charging.

电池来自珠海三川，3年前我买了20只。他们中的3只出现问题了，当充电时耗了和很多水，放电效果很不好，3只电压比正常电压低。容量减少需要频繁充电。

I believe they must have developed a short somehow? I tried replacing the electrolyte but there was no improvement.

我认为他们有点短路。试着更换电解液但是没有效果。

I also have a bank of original Edison cells from the 1930s which I have wired in parallel with the others. The Edisons are 375AH.

我也买了1930年的爱迪生铁镍电池，和其它电池并列使用，容量是375AH.

I like the NiFe cells because they can be undercharged or overcharged, they do well in cold weather, and they last a long time. Also, I like the fact that they aren't so toxic to the environment.

我新欢铁镍电池，因为它们耐过充过放，在冷地方应用很好。他们有很长的历史了，此外，我喜欢他们是因为他们无毒的。

I'm far from an expert on batteries, but I have been learning through personal experience for the last 10 years or so.

我不是电池专家，但是，我有十年的个人电池经验。

I'm sorry we are unable to do business together. I thank you for responding to my emails.

我很遗憾我们不能做生意，感谢你的回复。
